ERBIL - FEBRUARY 16 - 18, 2013

Under the Chairmanship of His Excellency Minister of Finance Dr. Rafe' Al-Issawi, **Al Anbar Investment Commission** holds its **Third Annual Investment Conference.**

Under the patronage of His Excellency Dr. Rafe' Al-Issawi, Minister of Finance, and in cooperation with Kurdistan Board of Investment, Al-Anbar Investment Commission will be holding its third annual investment conference on February 16-18 in Erbil, Kurdistan, Iraq. It will be attended by prominent Iraqi officials as well as an impressive group of local and international companies. The purpose of the conference is to present the best investment opportunities we have to offer and to work directly with interested investors to facilitate their market entry. We have designed the conference in such a way to accommodate for direct interaction with investors and build strong and sustainable economic relationships.

The Conference aims at opening new and unlimited horizons for an all-out investment in Al Anbar, the largest Iraqi Governorate. An exhibit will also be held showcasing the successful investment projects by many companies working in the province.

Major local, Arab and international investment companies are taking part in this conference seeking to take advantage of these rare investment opportunities now available in

Al Anbar, and the unprecedented incentives offered by the Iraqi government to investors.

Al Anbar, the largest Iraqi governorate in area, is a promising investment attraction because of its outstanding geographical location near Baghdad and its border with three countries, which appeals to investors looking to create new and competitive markets. The governorate has adopted long-term investment strategies aiming at employing the unique resources and assets of Al Anbar, a city renowned for its well-established and diverse industrial activities, in addition to several other successful investment stories in the sectors of housing, agriculture and tourism.

Last year's investment conference was held in Istanbul, Turkey and was attended by 300 participants representing over 200 Iraqi and international companies.
